

80 - 200 mm

180 - 730

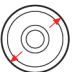

-30 C + 80 C

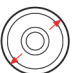

P	E
<p>Características</p> <p>Rodas monolíticas em poliamida 6 (nylon). Ferragem média (NL), média em aço inox (NLX), pesada em aço inox (PX).</p> <p>Utilização</p> <p>Pode ser utilizada em ambientes úmidos, com agentes altamente agressivos; é desaconselhável a utilização em ambientes com ácidos orgânicos fortes e minerais concentrados.</p>	<p>Características</p> <p>Ruedas monobloque de poliamida 6 (nylon). Soportes medios (NL), medios de acero inox (NLX), pesados de acero inox (PX).</p> <p>Utilización</p> <p>Se puede utilizar en ambientes húmedos, con agentes químicos altamente agresivos; se desaconseja su utilización en ambientes con ácidos orgánicos fuertes y minerales concentrados.</p>
